- **Section 1:** Molecular and Cellular Biology, Genetics and Evolution (50 questions)
- **Section 2:** Plant and Animal Biology (50 questions)
- **Section 3:** Ecology, Behavior and Evolution (50 questions)

The exam is scored on a scale of 100 to 600. A score of 530 is considered passing.

The best way to prepare for the Praxis Biology Exam is to start studying early. You should give yourself at least three months to prepare for the exam.

Here are some tips for preparing for the exam:

- **Create a study schedule.** Create a study schedule that you can stick to. This schedule should include time for studying each of the three sections of the exam.
- **Use a variety of study materials.** Use a variety of study materials to prepare for the exam. This includes textbooks, study guides, online resources, and practice tests.
- **Take practice tests.** Taking practice tests is one of the best ways to prepare for the Praxis Biology Exam. Practice tests will help you

identify your strengths and weaknesses and will help you get used to the format of the exam.

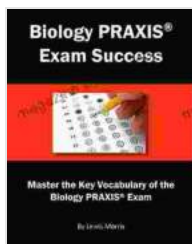

- **Get a good night's sleep before the exam.** Get a good night's sleep before the exam so that you are well-rested and ready to perform your best.

On test day, you should bring the following items to the testing center:

- Your photo ID
- Your admission ticket
- Pencils or pens
- A calculator

You will not be allowed to bring any other items into the testing center.

The Praxis Biology Exam is a challenging exam, but it is certainly possible to pass with proper preparation. By following the tips in this guide, you can increase your chances of success on the exam and take the first step towards becoming a certified biology teacher.
