One story follows a group of architects who designed a low-cost housing solution for the slums of Mumbai. The homes are made from recycled materials and are designed to withstand the city's harsh climate. They have

provided affordable housing for thousands of families, and have helped to improve the quality of life in the slums.

Another story features a fashion designer who is using her platform to raise awareness about environmental issues. She has created a line of clothing made from recycled materials, and she donates a portion of her profits to environmental charities.

How design is changing the world

These are just two examples of the many ways that design is changing the world. Designers are working to solve some of the world's most pressing problems, such as poverty, climate change, and inequality.

Design can be used to create products and services that are more sustainable, affordable, and accessible. It can be used to create environments that are more livable, healthy, and inspiring.

Design has the power to change the world for the better. This book is a celebration of the transformative power of design, and it is an inspiration to all who want to make a difference in the world.
