## By Seymour Hersh

In *Rats in the White House*, Pulitzer Prize-winning investigative journalist Seymour Hersh uncovers a web of lies, betrayals, and backroom deals that have led to the erosion of our democracy and the rise of a dangerous new oligarchy.

Hersh's bombshell investigation reveals how:

- The Bush administration lied to the American people about the reasons for invading Iraq.
- The Obama administration covered up the extent of the NSA's spying program.
- The Trump administration colluded with Russia to interfere in the 2016 election.
